

A family whose young son was diagnosed with WS early in 2023 have made a great start to fundraising for us.

Just a few months after the diagnosis they organised a raffle which raised £1000 and was then matched by Barclays Bank with another £1000, as a member of the fundraising team works for them.

In August they arranged for WSUK to be co- beneficiaries with Birmingham Children's Hospital at a Charity Football match played in Stourport on-Severn between the Wolves Allstars and the Peacock Wanderers. One of the organisers of the match is a cousin of the WS mum and himself had a son treated at BCH for Cancer. The amount raised for WSUK was £1350.00

Their next event is planned for 1<sup>st</sup> October which coincides with the WS Global Awareness Day.

Keep up the great work!!
