Trustees' Report

The trustees, who are directors for the purposes of company law, present the annual report together with the financial statements of the charitable company for the year ended 29 February 2024.

Objectives and activities

Objects and aims

Wolfram Syndrome (WS) is a genetic disorder causing Diabetes Insipidus, Diabetes Mellitus, optic atrophy and deafness. It affects children and adults and there is currently no known cure. There are currently around 110 people diagnosed with WS in the UK. This number is rising and expected to reach 150 due to increased genetic testing and improvements in the diagnosis of partial Wolfram. WSUK exists to meet the needs of the WS community – the children, young people and adults affected by WS and their families. Due to the rare and under-researched nature of this illness, diagnosis currently takes 3-6 months and involves several thousand tests. There is only one recognised centre of expertise for children, which is at Birmingham Children's Hospital; and for adults, at Queen Elizabeth Hospital Birmingham; therefore, it is believed that many cases may not be recognised.

WSUK raises funds to help finance further research and through its e-newsletters, website and annual conference increase levels of awareness, knowledge and understanding of this illness. These activities benefit not only those currently affected but also those diagnosed in the future and their families, not least in sustaining an enhanced national focus on finding effective treatments and an eventual cure.

For those currently affected and their families, WSUK maintains a voluntary register and distributes information about its aims, objectives and activities. WSUK provides direct and practical benefit through information, on-going front-line support, advice and guidance. Further practical and emotional benefit is provided by WSUK to families living with WS in the form of an annual conference, activities / projects for specific members of the WS community (e.g., WS affected adults) and virtual or in person family / community meetings.

As it is important for the WS community to have opportunities to meet in between the annual conferences, WSUK aims to provide social events that enable members of the WS community build relationships and provide peer support in a safe and welcoming space. This may include regular on-line sessions for small groups, and / or in person events or family days at venues around the country. It is intended that WSUK in person events are organised at little or no cost for families and individuals to help maximise participation. In addition, WSUK will aim to organise "take a break" opportunities for parents and carers at an affordable cost.

For the benefit of current and future WS affected people the level of awareness, debate and research among the public and within the professional community of medical practitioners is raised through a number of dissemination activities organised through WSUK. From the professional forums initially organised at the Birmingham clinic, WSUK will be able to identify potentially valuable research opportunities that it can support through its family network and financially. The WSUK website is also used to further disseminate research results and publications.

All of these activities are aimed at benefiting all of the families registered with WSUK without any further restriction and regardless of their ability to contribute financially. At the discretion of the trustee's, financial support will be provided where poverty is a barrier to benefit. There will be no private benefits to anyone from WSUK other than as a beneficiary of its stated aims and activities.

No detriment or harm will arise from carrying out any of the aims, objectives or activities of WSUK.

Public benefit

The trustees have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing the charity's aims and objectives and in planning future activities.

Trustees' Report

The trustees confirm that they have complied with the requirements of section 17 of the Charities Act 2011 to have due regard to the public benefit guidance published by the Charity Commission for England and Wales.

Achievements and performance

WS Community Support

During 2023/2024, WSUK continued to provide expert support activities and services to the WS community, specifically through the following: -

1. Contract with Birmingham Women's and Children's NHS Foundation Trust (BWC NHSFT) to support the WS clinic services for children and young people.

In October 2023, WSUK successfully completed the first year of its contract with BWC NHSFT to support the WS Multi-Disciplinary Team (MDT) clinic services, part of the NHS England Highly Specialised Service, provided to affected children and young people, and their parent carers and wider family members.

At the end of Y1 (i.e. Oct 2023), the WSUK Family Support Co-ordinator (FSC) was either supporting or was actively engaged with the majority (76%) of young people and their families and had delivered or was actively delivering a total of 80 support issues (e.g. supporting Education, Health and Care Plan (EHCP) applications or providing emotional support to parents). During Y1, 6 families received a home visit from the FSC.

By Oct 2023, the FSC had also successfully supported the four WS MDT clinics at BCH, which were attended by a total of 20 children / young people in person and 3 virtually (23 total; 9 of whom were new referrals) and their parent carers. One important metric for the BWC NHSFT team and NHS stakeholders is the number of families who do not attend clinic as expected (i.e., "Did Not Attends"; DNAs) and aim for the service to achieve the minimal number of DNAs as possible. As all families attended each of the WS MDT clinics during 2023 as expected, the number of DNAs was zero - a very positive achievement.

Some of WSUK's on-going activities conducted to support or inform the WS community, continue to form part of the new contract BWC NHSFT, namely - i) Annual Conference, ii) managing the WSUK database, iii) WSUK website and iv) quarterly E-Newsletters.

In September 2023, WSUK held a face-to-face UK Annual Conference at a new venue which catered for many of our communities needs. The UK Conference provided the opportunity for members of the WS community to connect with each other in person and engage with WS health professionals in a non-clinic setting. Presentations both were recorded and uploaded onto the WSUK website, to enable those who were either unable to attend or part of the ex-UK global community to hear the latest updates from WSUK, researchers and representatives from other relevant organisations (https://wolframsyndrome.co.uk/ws-conference). As part of the conference, two first aid workshops were held for a total of 24 attendees to learn Basic First Aid skills. These proved popular and will be considered for future events.

Throughout the year, WSUK has continued to regularly update the charity website (https://wolframsyndrome.co.uk/) to ensure that it provides the WS community with accurate, current and family-friendly information on WS-related issues, which is medically endorsed. In addition, WSUK has continued to deliver quarterly e-newsletters to all those in the WS community and its supporters who elect to receive regular updates. Each newsletter includes information on a range of topics for example, updates on the latest research, including the TREATWolfram clinical trial. Each newsletter is distributed by email, uploaded on the WSUK website, and shared via WSUK social media. To help ensure the e-newsletter is as accessible as possible, visually impaired (VI) members who use a screen reader receive a text alternative for any included images. In addition, an audio version is made available through the WSUK website and social media accounts, and a large font printed copy is posted to a small number of members, where specifically requested.

Trustees' Report

2. Enhanced support for WS affected adults.

During 2023/2024, the WSUK Adult Support Co-ordinator (ASC) continued to engage with the WS affected adult community to provide enhanced support through activities such as: -

i. Attendance at the WS Adult MDT clinics at Queen Elizabeth Hospital (QEH).

By Feb 2024, the ASC had attended a total of 4 WS MDT clinics at QEH (80% of 5 clinics held) to meet WS affected adults and their family members in person and better understand their situation, current challenges and support needs. Through attending these clinics in person, the ASC also has built strong, positive relationships with the adult clinic lead and other members of the MDT team.

ii. The Emotional Wellbeing (EWB) project for WS affected adults.

In Nov 2023, WSUK completed the EWB project, which was designed to help empower WS affected adults to improve their emotional wellbeing and funded through a grant received from the National Lottery Community Fund. As part of this project, the ASC held personalised 1:1 monthly support sessions with 13 WS affected adults, and 4 adults have continued with these sessions beyond the end of the project. In addition, the ASC held interactive peer wellbeing support sessions to provide a safe and welcoming space for WS affected adults to connect and help each other. Wellbeing resources, on different aspects of wellbeing from a range of recognised sources, have also been made available on WSUK website for everyone in the WS community (https://wolframsyndrome.co.uk/our-projects/).

iii. On-going front-line support

In addition to the WS MDT clinics and EWB project, the ASC has supported WS affected adults and their families with a range of other issues such as accessing adult social care, housing adaptations and attending MDT meetings on EHCPs/further education. By Feb 2024, the ASC had conducted 6 home visits to help support WS affected adults, which included for example, a newly diagnosed family, a family with housing adaptation needs and supporting 2 young adults with their mental health.

Through all these activities, the ASC has successfully established strong and trusted relationships with many WS affected adults and has started building connections within the adult community for peer-to-peer support. There is a clear need for continued on-going support and therefore WSUK intends to develop new activities during 2024/25 to further engage and help the WS adult community.

Trustees' Report

Research

1. TREATWolfram clinical trial

A total of 63 children, young people and adults have been recruited to the TREATWolfram clinical trial across the UK and at three other international sites. WSUK has previously provided funds to this trial to help support patient visit costs for UK participants. The first young people who were recruited at Birmingham Children's Hospital, have now completed their last patient visits, while the final patients recruited will complete their last visits in October 2024.

The final WSUK payment to support TREATWolfram was originally deferred following patient recruitment delays due to the COVID pandemic. During 2022/23, the trial lead confirmed that additional funds would not be required for the remainder of the study and in addition, any surplus funds would be returned to WSUK once final payments had been made. As such, both the final payment and any surplus will remain restricted funds and will be allocated to help support future clinical trials conducted in the UK or other research activities.

2. WSUK Scientific Advisory Board

In February 2024, the WSUK Scientific Advisory Board (SAB) met to discuss the research proposals received for the small grant funding of £15,000. A decision was made to award these funds to a research project in Birmingham that had some links to the TREATWolfram project. The funds will be released in the next financial year (i.e. 2024/2025) due to the timing of the SAB decision in February 2024.

3 WS International Research Symposium

In April 2023, WSUK co-hosted the 8th WS International Researchers Symposium in Surrey. 30 researchers and Pharma representatives from around the world spent 2 days discussing their current research projects and clinic trials. The programme was specifically designed to give participants time to hear the presentations, ask questions and chat with other researchers informally between sessions, and has resulted in some new collaborations between global research teams. The symposium ended with all participants collaborating on a CURE4WOLFRAM Action Plan, which will be discussed at the next symposium planned for late 2024 in the UK.

Trustees' Report

Fundraising

Consistent with previous years, fundraising activities were conducted throughout the year by the WSUK team, the WS community and its supporters. Specific examples include, but are not limited to: -

i. Monthly donations -

Members of the WS community and WSUK supporters continued with their regular monthly donations, which were greatly received and hugely appreciated.

ii. Local fundraising events by WSUK supporters -

Examples include: - a local recruitment company hosted 2 charity football matches during the year. WSUK attended each event to support the players, raise the awareness of WS and highlight how their donations help this community.

iii. Community donations -

Throughout the year, members of the WS community completed fundraising activities or made donations to help support the charity.

iv. Annual Golf Day event -

The 10th WSUK Annual Golf Day was held in July 2023. The participating teams, many of whom have been involved in previous events, raised a record amount for the charity.

v. Sale of UK branded items -

Similar with previous years, items such as Christmas cards, water bottles and pens were sold through both the WSUK website and social media accounts, conference and at charity fundraising events.

vi. 80's night -

In April 2023, WSUK held its popular 80's night, which was well attended as always.

WSUK thanks everyone in the WS community and its supporters for their continued support in helping the charity to raise funds to deliver its important work.

WS Global Awareness Day 1st October

The third WS Global Awareness Day took place on October 1st 2023, which fell the day after the annual conference. WS related information was distributed to global organisations to help raise their awareness of the condition. WSUK intends to hold the fourth WS Global Awareness Day on 1st October 2024.

Financial review

Total incoming resources for the year were £136,399 (2023: £108,116) with expenditure of £113,865 (2023: £64,911). Overall, there was a surplus for the year of £22,534 (2023: £43,205). Unrestricted funds at the year-end were £37,569 (2023: £31,937) and the restricted funds were £93,457 (2023: £76,555). Total funds for the year were £131,026 (2023: £108,492).

Trustees' Report

Policy on reserves

The trustees have examined the charity's requirements for reserves in light of the main risks to the organisation. The trustees consider that the present level of funding will be adequate to support the continuation of the charity and for it to fulfil its obligations.

Investment policy and objectives

The objects of the company authorises it to invest and deal with moneys not immediately required for its purposes in and upon such investments securities and property as may be thought fit.

Going concern

The charity has reviewed it's financial performance and general reserves position. The charity has adequate financial resources and is able to manage it's business risks. The charity's planning process has taken into consideration the current economic climate and its potential impact on the various sources of income and planned expenditure.

Taking into account all factors the charity has reasonable expectation that it has adequate resources to continue in operational existence for the foreseeable future and believe that there are no material uncertainties that call into the charity's ability to continue in operation.

Accordingly, the accounts have been prepared on the basis that the charity is a going concern.

Structure, governance and management

Nature of governing document

Wolfram Syndrome UK is a Charitable Incorporated Organisation registered on 17 June 2013 with the Charity Commission of England and Wales (no. 1152445). The charity's working name is WSUK.

Trustees

Mr A Nye

Prof T Barrett

Mr P Lynch

Mr J Isherwood

Miss A Gardner

Mr N Mistry (resigned 4 June 2024)

Recruitment and appointment of trustees

The Board has the power to appoint additional trustees as it considers fit to do so.

None of the trustees has any beneficial interest in the charity.

Trustees' Report

Induction and training of trustees

Potential trustees are selected on the basis of their personal qualities and the complex issues involved. A speciality linking to charity needs is also sought. New trustees are made familiar with the charity vision, operation and goals by dialogue with existing personnel and provision of minutes and other literature pertaining to charity activity.

All trustees are already familiar with the practical work of the charity. New trustees are encouraged to attend all management committee meetings. Short training sessions (if required) to familiarise new trustees with the charity and the context within which it operates are provided.

Organisational structure

The charity is organised so that the trustees meet regularly to manage its affairs. The trustees meet at least quarterly with additional meetings as required. The charity is overseen by the trustees, supported by volunteers. The organisation operates in the UK from premises in Church Road, Worthing.

Key strategic and administrative decisions are made by agreement of the trustees, and delegated as appropriate. Day to day management of the charity is delegated to the Chief Executive, Mrs Tracy Lynch.

Financial instruments

Objectives and policies

The charity only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value with the exception of bank loans which are subsequently measured at amortised cost using the effective interest method.

The annual report was approved by the trustees of the charity on 15/11/24. and signed on its behalf by:

Mr J Isherwood Chairman and trustee

Statement of Trustees' Responsibilities

The trustees are responsible for preparing the trustees' report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Charity SORP requires the trustees to prepare financial statements for each financial year. The trustees must not approve the financial statements unless they are satisfied that they give a true and fair view of the charity and of the incoming resources and application of resources, including its income and expenditure, of the charity for that period. In preparing these financial statements, the trustees are required to:

- select suitable accounting policies and apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in business.

The trustees are responsible for keeping accounting records that disclose with reasonable accuracy at any time the financial position of the charity. They are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Approved by the trustees of the charity on 15/11/24 and signed on its behalf by:

Mr J Isherwood Chairman and trustee

Independent Examiner's Report to the trustees of Wolfram Syndrome UK

I report to the charity trustees on my examination of the accounts of the Charity for the year ended 29 February 2024.

Responsibilities and basis of report

As the charity's trustees you are responsible for the preparation of the accounts. The charity's trustees consider that an audit is not required for this year under section 144 of the Charities Act 2011 ("the Charities Act") and that an idependent examination is needed.

Having satisfied myself that the charity is not subject to audit under company law and is eligible for independent examination, it is my responsibility to:

- examine the accounts under section 145 of the Charities Act,
- to follow the procedures laid down in the general Directions given by the Charity Commission (under section 145(5)(b) of the Charities Act), and
- to state whether particular matters have come to my attention.

Basis of independent examiner's statement

My examination was carried out in accordance with general Directions given by the Charity Commission. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts, and seeking explanations from the trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit, and consequently no opinion is given as to whether the accounts present a 'true and fair' view and the report is limited to those matters set out in the statement below.

Independent examiner's statement

In connection with my examination, no material matters have come to my attention which gives me cause to believe that in, any material respect:

- the accounting records were not kept in accordance with section 130 of the Charities Act; or
- the accounts did not accord with the accounting records; or
- the accounts did not comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a "true and fair" view which is not a matter considered as part of an independent examination.

I have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

Matthew Hodson FCA Independent Examiner

The charity is a Charitable Incorporated Organisation (CIO) and consequently does not have share capital.

The address of its registered office is:

9 Church Way Tarring Worthing West Sussex

West Susse:

BN13 1HD

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice (applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102)) (issued in October 2019) - (Charities SORP (FRS 102)), the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and the Companies Act 2006.

Basis of preparation

Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy notes.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Going concern

The trustees consider that there are no material uncertainties about the charity's ability to continue as a going concern nor any significant areas of uncertainty that affect the carrying value of assets held by the charity.

Income and endowments

All income is recognised once the charity has entitlement to the income, it is probable that the income will be received and the amount of the income receivable can be measured reliably.

Donations and legacies

Donations are recognised when the charity has been notified in writing of both the amount and settlement date. In the event that a donation is subject to conditions that require a level of performance by the charity before the charity is entitled to the funds, the income is deferred and not recognised until either those conditions are fully met, or the fulfilment of those conditions is wholly within the control of the charity and it is probable that these conditions will be fulfilled in the reporting period.

Notes to the Financial Statements for the Year Ended 29 February 2024

Grants receivable

Grants are recognised when the charity has an entitlement to the funds and any conditions linked to the grants have been met. Where performance conditions are attached to the grant and are yet to be met, the income is recognised as a liability and included on the balance sheet as deferred income to be released.

Investment income

Dividends are recognised once the dividend has been declared and notification has been received of the dividend due.

Expenditure

All expenditure is recognised once there is a legal or constructive obligation to that expenditure, it is probable settlement is required and the amount can be measured reliably. All costs are allocated to the applicable expenditure heading that aggregate similar costs to that category. Where costs cannot be directly attributed to particular headings they have been allocated on a basis which is reasonable, justifiable and consistant.

Raising funds

These are costs incurred in attracting voluntary income, the management of investments and those incurred in trading activities that raise funds.

Charitable activities

Charitable expenditure comprises those costs incurred by the charity in the delivery of its activities and services for its beneficiaries. It includes both costs that can be allocated directly to such activities and those costs of an indirect nature necessary to support them.

Support costs

Support costs include central functions and have been allocated to activity cost categories on a basis consistent with the use of resources, for example, allocating property costs by floor areas, or per capita, staff costs by the time spent and other costs by their usage.

Governance costs

These include the costs attributable to the charity's compliance with constitutional and statutory requirements, including audit, strategic management and trustees meetings and reimbursed expenses.

Taxation

The charity is considered to pass the tests set out in Paragraph 1 Schedule 6 of the Finance Act 2010 and therefore it meets the definition of a charitable company for UK corporation tax purposes. Accordingly, the charity is potentially exempt from taxation in respect of income or capital gains received within categories covered by Chapter 3 Part 11 of the Corporation Tax Act 2010 or Section 256 of the Taxation of Chargeable Gains Act 1992, to the extent that such income or gains are applied exclusively to charitable purposes.

Tangible fixed assets

Individual fixed assets are initially recorded at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Depreciation and amortisation

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

Notes to the Financial Statements for the Year Ended 29 February 2024

Asset class

Plant and machinery Office equipment Depreciation method and rate

over 4 years

between 2 and 5 years

Impairment of fixed assets

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date.

Research and development

Research and development expenditure is written off as incurred.

Stock

Stock is valued at the lower of cost and estimated selling price less costs to complete and sell, after due regard for obsolete and slow moving stocks. Cost is determined using the first-in, first-out (FIFO).

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

Trade creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if the charity does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade creditors are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method,

Fund structure

Unrestricted income funds are general funds that are available for use at the trustees discretion in furtherance of the objectives of the charity.

Designated funds are unrestricted funds earmarked by the trustees for particular future project or commitment,

Restricted income funds are those donated for use in a particular area or for specific purposes, the use of which is restricted to that area or purpose.

Financial instruments

Classification

The charity only has financial assets and liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value with the exception of bank loans which are subsequently measured at amortised cost using the effective interest method.
